PROJECTS

Medicare

- **Frontend** | **Dashboard**
- Created a fully functional **MERN** stack hospital project with dashboard for **admin access**.
- **React+Vite** is used for developing frontend and dashboard, meanwhile backend is supported by **NodeJs** and **ExpressJs**, **MongoDB** is chosen for database.
- Major Features include **Authentication and Authorization**, hashing using **Bcrypt**, use of **JWT tokens** for **cookie management** and employing **cloudinary** for fetching avatar.

Gymholics

- Created **MERN** stack website for gym which allows visitors to check their **BMI** and advices them accordingly.
- Developed front end using **React** which enhanced **user interface** and improved overall experience.
- **Nodemailer** is used for sending visitor's data filled in contact form directly into specified **Email-id** which eases reading and responding to visitor's queries.

Restaurant

- Created a responsive restaurant website which seamlessly takes users through our services, menu and also helps them to reserve a table using **MERN** stack.
- The Front end is built using **React+Vite** for better **user interface**, and smooth navigation throughout the website.
- The backend is supported by **NodeJs** and **ExpressJS**, and **MongoDB** is used to store table reservation data.
- Not Found and Success redirect pages are also developed to enhance **user experience**.

ACHIEVEMENTS

- Shortlisted for the second round of **Smart India Hackathon (SIH) 2023**.
- Finalist in **GWOC'23 (Google Winter of Code)**.
- **Top 10 institute rank** with 650+ problems solved on **GeeksforGeeks**, 200+ problems on **CodeChef** and 100+ problems on **Leetcode**.
- Currently ranked in the **top 10** of our department in my batch.
- Achieved **98.43** percentile in **JEE Mains** and cleared **JEE Advanced**.
- Scored **99.83** percentile in **Gujarat Common Entrance Test (GUJCET)**.
